

Who We Are:

We are a group of physicians who are very concerned with the harsh position Premier Ford's government has taken in the "negotiations" with the OMA (www.FamilyDoctorsForOntario.ca). Unfortunately, because The Hon. Premier Ford has shown to be a vindictive person ([see here](#) and [here](#)) we are forced to remain anonymous. We are not a splinter group, we support the OMA, even if we sometimes disagree we're concerned doctors who remember what happened over 20 years ago.

What We Believe:

We believe the MOH's ruthless position reflects the Government's disdain for the medical profession and we believe medicine in Ontario in under serious threat; a threat not seen since the last time the Conservatives were in power (1995-2003) under Mike Harris. For those of us who were around during that period, it is considered the Dark Ages for Ontario's doctors, complete with Harris' version of the Spanish Inquisition that culminated with the suicide of the beloved Pediatrician Dr. Anthony Hsu.

We need to mobilize and be active! Spread the word!
